

NEXORA – THE FULL STACK EXPO

Event Report

Event Name	NEXORA – The Full Stack Expo
Organized By	IEEE Student Branch, VVITU
Date	16 March 2026
Venue	New Block Seminar Hall, VVITU

Introduction

NEXORA is a premier Full Stack Development Expo designed to bring together passionate developers and innovative thinkers to showcase the future of web technology. This dynamic platform invites creative minds to build, demonstrate, and present powerful web solutions, bridging the gap between foundational development and real-world application.

Through NEXORA, 2nd- and 3rd-year B.Tech students were given a unique stage to step into the spotlight, presenting their deployed websites and applications before an esteemed panel of faculty judges. Highlighting technologies such as HTML, CSS, JavaScript, React, APIs, and MongoDB, the expo championed the technical achievements and problem-solving skills of rising engineers.

Guests

- Dr. Y. Mallikarjuna Reddy — Registrar, VVIT University
- Dr. V. Rama Chandran — HOD, CSE Department

Framework of the Day

Activity	Time
Event Commencement	9:00 AM
Welcome Address	9:05 AM
Inauguration & Judges' Speech	9:30 AM
Expo Session	10:15 AM – 2:15 PM
Judges' Discussion & Result Calculation	2:15 PM – 2:35 PM
Closing Ceremony & Prize Distribution	2:35 PM – 3:00 PM

Judging and Evaluation Criteria

The projects presented at NEXORA 2026 were evaluated by the faculty panel based on originality of idea, technical feasibility, design and user interface, innovation and functionality, and presentation and explanation. The evaluators appreciated the participants for their creativity.

Event Overview

As part of its ongoing commitment to fostering technical excellence, the IEEE Student Branch of VVIT University (IEEE SB VVITU) proudly organized a distinguished, day-long Full Stack Development Expo titled “NEXORA” on 16 March 2026. This premier event was dedicated to highlighting cutting-edge web technologies.

NEXORA 2026 witnessed an overwhelming response with 25 participating teams, including a notable external presence of two competitive teams from RVR & JC College. The expo particularly spotlighted the active drive and technical maturity of 3rd-year B.Tech students, who showcased highly sophisticated, deployed web applications. The event concluded with top-performing teams competing for cash prizes and official certificates awarded to the winners and runners-up.

Objectives

- To stimulate a culture of innovation, creative problem-solving, and analytical reasoning through the building and presentation of powerful web solutions.
- To offer an interactive forum for students to showcase their technical skills before faculty judges, improving their communication and project-defense skills.
- To cultivate a vibrant developer community that inspires collaborative thinking, knowledge sharing, and peer learning among engineering students.

Participating Teams and Projects

SNo	Team No.	Branch	Project Title
1	2	CIC	Career Connect
2	3	CIC	Event Registration and Management Portal
3	4	CAI	AI-based Drop-out Prediction and Counselling System
4	6	CIC	Smart Gym Membership Management System
5	7	CIC	Smart Faculty Leave & Substitution Management System
6	8	CIC	QuickBites – An Online Food Delivery App
7	9	CIC	One Edu – A Career Guides Platform
8	10	CIC	CampusConnect
9	11	CIC	Employee Leave Management System
10	12	CIC	StudyHub
11	13	CIC	A Web-Based ERP Model for Efficient School Management

12	16	CSE	AI Online Marketplace Price Negotiator
13	17	AIDS	NCC Cadet Management System
14	18	CSE	Secure Steps
15	20	CIC	Docsy – Digital Printing System
16	21	CSE	Attend Guard
17	22	CIC	E-Commerce
18	23	CIC	Secure File Sharing Platform
19	24	CSE	Professional Hub
20	25	CIC	Smart Restaurant Management
21	26	CIC	Smart Canteen System
22	27	CSE	Peer Skill Exchange Credit System
23	29	AIDS	Dairy
24	30	INF	A Modern Platform for Exploring Destinations
25	31	CIC	CryptPact

Mentor and student team discussing their project during evaluation

A participant explaining their project to a faculty member

Registrar's Address

Dr. Y. Mallikarjuna Reddy, Registrar of VVIT University, addressed the gathering and emphasized the importance of innovation, creativity, and practical implementation in engineering education. He appreciated the IEEE Student Branch for organizing NEXORA – The Full Stack Expo, describing it as an excellent platform for students. He highlighted that events like NEXORA encourage students to develop problem-solving abilities, presentation skills, and innovative thinking beyond classroom learning.

He also stated that Full Stack Development plays a significant role in today's software industry, underscoring the value of practical exposure to technologies. He encouraged students to actively participate in technical events and to continue working on creative ideas and innovative projects that contribute to both personal growth and technological advancement.

Awards and Recognition

The evaluation panel highly appreciated the innovative concepts and technical creativity demonstrated by all participating teams. To honor their achievements, cash prizes and official certificates were presented to the top-performing teams for their outstanding project execution.

- 1st Prize (₹3,000): Team No. 30 — “Dairy,” recognized as the top-performing project of NEXORA 2026 for its innovative, practical application addressing real-world challenges in the dairy sector, standing out for its technical execution and problem-solving approach.
- 2nd Prize (₹2,000): Team No. 20 — “Docszy – Digital Printing System,” recognized for its practical, real-world application and its seamless translation of full-stack methodologies into an impactful, user-centric software solution.

- 3rd Prize (₹1,000 per team): Campus Connect (Team No. 10), CryptPact (Team No. 31), Smart Faculty Leave & Substitution Management System (Team No. 7), Secure Steps (Team No. 18), and Professional Hub (Team No. 24).

In addition to these top honors, participation certificates were distributed to all contenders, celebrating their hard work, competitive spirit, and overall dedication to full-stack innovation. These collective achievements underscore the immense potential within the student developer community to design scalable architectures that efficiently address modern societal and administrative challenges.

Vote of Thanks

Sincere gratitude was extended to all participants whose innovative ideas and technical dedication formed the core of NEXORA 2026. Deep appreciation was expressed to the faculty members for their valuable cooperation and meticulous efforts in evaluating the projects. The evaluators were highly thanked for providing constructive feedback that greatly enriched the students' learning experience. Finally, the student organizing body received high praise for their exceptional coordination and flawless execution of the entire event.

NEXORA 2026 concluded successfully with enthusiastic participation, innovative project presentations, and valuable technical learning experiences for all attendees. The event served as an excellent platform for students to showcase their creativity, practical knowledge, and problem-solving abilities in the field of Full Stack Development.
